

We undertake to comply with safety regulations preserve the life and the integrity of all those working on site and at the company. We will make every effort to comply with safety regulations and, if necessary, will interrupt our activity and say STOP.

STOP IN THE EVENT OF DANGER / MAKE SAFE / RESUME WORK

As a company director	As a manager	As an employee
At the tender preparation stage, I will identify the risks connected with the project and will provide the necessary safety equipment.	I will analyse the tender documents and determine the necessary safety measures.	I will stay informed, make suggestions and abide by the work regulations and instructions.
I will plan and coordinate the activity of the parties based on the progress of the works, incorporating safety measures at each stage.	I will instruct my personnel and encourage them to take part in the decision process. I will provide them with the personal protective equipment that they require.	I will never modify the protective devices, will report their non-compliance and will have them maintained, if necessary. I will ensure that my colleagues are never placed in danger.
I will check that the decided measures are applied and, if necessary, will decide any corrective measures to be implemented.	I will check that the planned measures are adopted and, if necessary, decide any corrective actions.	I will make my work place safe and keep it clean and tidy. I will immediately rectify and faults or report them to my superior.
In the event of a serious breach of the safety regulations, I will order an immediate halt to the work and take corrective action to re-establish safe conditions.	In the event of a serious breach of the safety regulations, I will order an immediate halt to the work and take corrective action to re-establish safe conditions.	In the event of a serious breach of the safety regulations, I will stop work immediately and immediately inform my superior and my colleagues.
I will ensure that my employees participate in workplace risk analyses. I will assign no missions without having first analysed the risks involved and adopted the necessary measures to guarantee the safety of my employees.	I will arrange the necessary training sessions and instruct the employees on the importance abiding by the safety regulations.	Being also responsible for the safety of my place of work, I have a duty to stop work if essential safety regulations are not observed, to prevent my colleagues from taking risks and to alert my superior.
